Opturasoft Trading & Contracting would like to thank you for giving an opportunity to present this proposal, an initiative to build a long lasting business relationship with your company. Opturasoft is one of the trusted partners for providing end-to-end business solutions, and we are excited at this opportunity to build and strengthen our relationship. We are glad to demonstrate to you, through this proposal that we have the capability, people, processes, technology and the desire to be your strategic partner of choice.

For us, being inventive to give you cutting-edge technology is our passion since our inception in 2000. And now we seamlessly integrate advanced technologies with our years of experience, to provide you **Home/Office Automation (SMART SYSTEMS), Civil, Interior & Exterior Fit-Out , MEP, Multi-room Audio System, Centralized Vacuum System, PA system. SMATV System, Parking Management System, Vehicle Tracking System/GPRS, Security, Turnstile System, CCTV surveillance solutions, Telephone PBX, Lighting, IT network & hardware solutions, structured cabling, Audio Video Solutions, Website Design, customized software solutions, branding & marketing solutions.** In short, we specialize in providing customer and business centric IT solutions.

We have three state-of-the art offshore development & delivery centers in the United Kingdom, Australia and Qatar, each capable of executing large and mission critical assignments. In Qatar we are guided by **Mr. JABER MOHAMMED J A AL-KUWARI** who is the sponsor and chairman of the company. Inspired by our core proposition, our quest is to continuously deliver greater efficiency gains to your business by automating and simplifying process and minimizing human intervention.

Based on our experience and discussions we understand your business needs. Opturasoft promises a strong business foundation to deliver greater efficiency, sustain & improve compliance and deliver customer satisfaction, while meeting its key objectives around quality, accuracy, time and cost.

Our primary objective is to develop an environment of fairness, honesty, integrity and courtesy towards our clients, employees, vendors and the society at large. We are committed to our customers and partners, have a passion for technology, are confident in taking up big challenges and pride ourselves in seeing them through.

The following section of this document explains briefly about the technology, people and processes based solutions that we offer for our esteemed clients.

WHAT We Do

Home Automation

MISSION & VISSION STATEMENT

"Our mission is to use our experience and innovation to help our customers be more effective. Through our talent and concern, we strive to exceed our client's expectations in our business relations. In this process, we become an asset to our customers, which will cause us to profit mentally, emotionally, and financially because of the results". We believe that we must provide innovative, competitive and top-quality services to our customers. Our first responsibility is to meet our customer's requirements, to finish the project on time and within budget. To help our clients meet the complex needs of business growth with software solutions and services delivered in a manner that builds lasting partnerships.

We are dedicated to building a long-term relationship with each customer - a partnership founded on commitment to quality and trust.

We will achieve our mission:

Through outstanding technical, commercial and leadership skills By being professional, responsive, dynamic, innovative and focused With pace, confidence, passion and style.

Our Vision

- ✓ To provide the highest quality of software development process.
- ✓ To become the leading provider of Security and Automation solutions.
- ✓ We serve with our endless services to customers based on customers' needs

Optura Soft Qatar development Centre

At Qatar, we utilize an offshore development centre (ODC) spanning over 1,500 Sq. ft. capable of housing 20+ software and hardware consultants. The ODC uses a multi-dimensional approach, planned to support growth and technology advancement, thus ensuring that the solutions we architect for our clients are built in a most productive and effective manner. We are situated in the commercial hub of Qatar.

Optura Soft India development Centre

Our development Centre in India is located in Trivandrum, Kerala. The development Centre spans over 15,000 Sq. ft. and houses 200+ software consultants. The development Centre uses multi-dimensional approach, planned to support growth and technology advancement, thus ensuring that the solutions we architect for our clients are built in a most productive and effective manner.

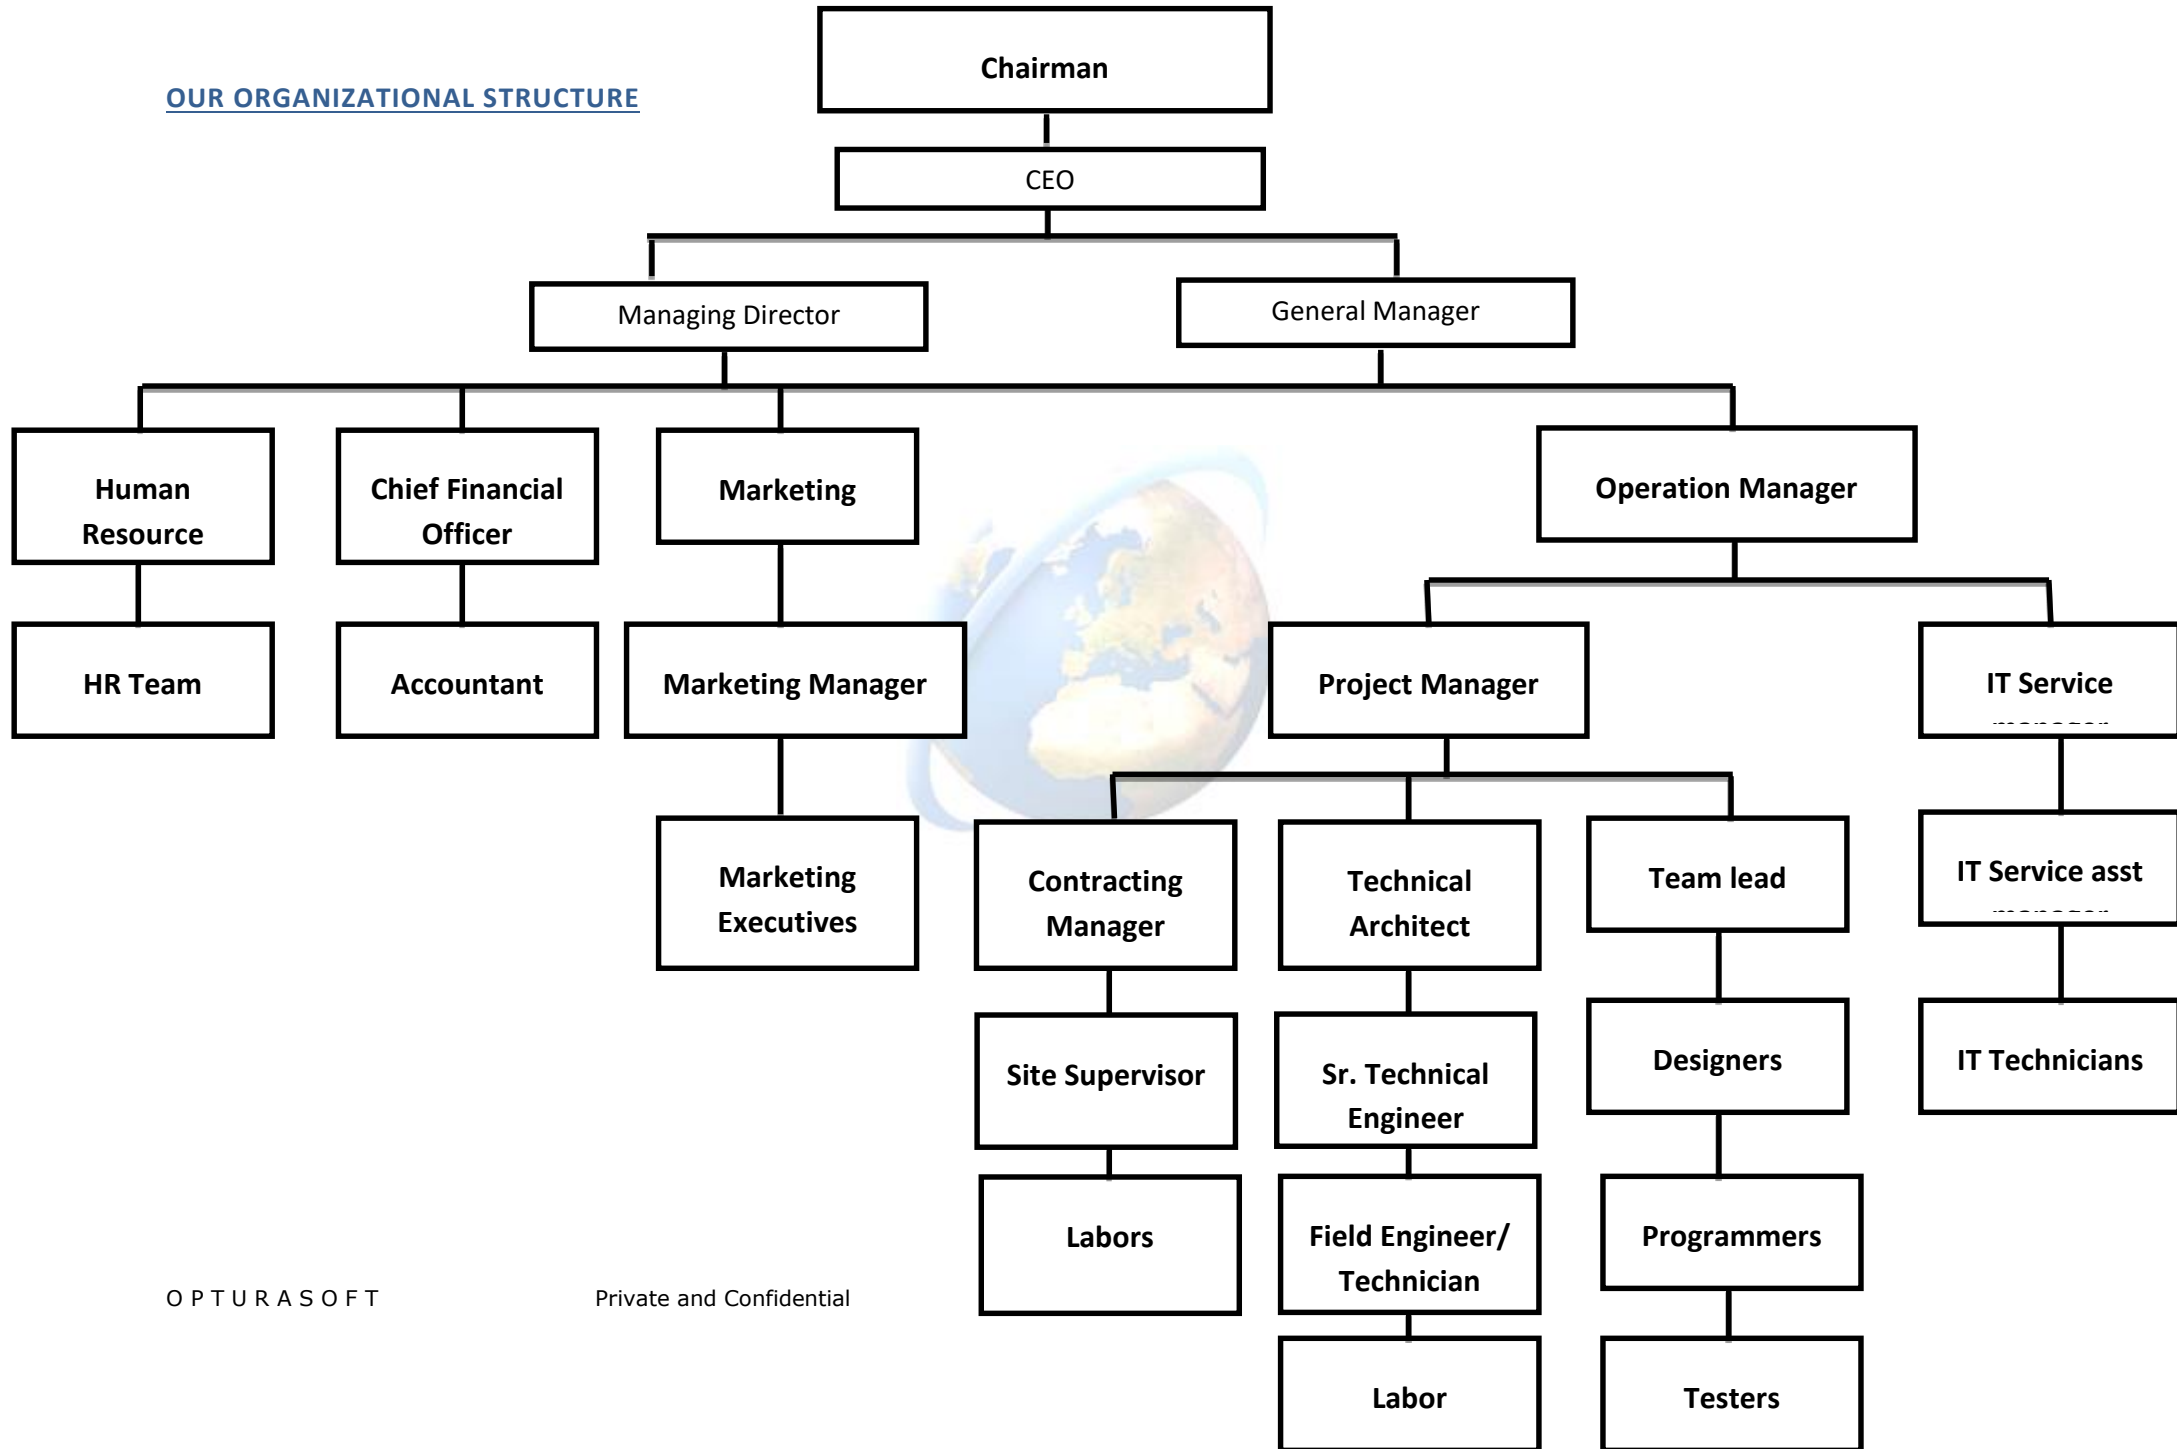

The development center house state-of-the-art technological infrastructure, which includes:

- Giga speed switched network of 300+ nodes
- High-end servers from Compaq, IBM, HP and Sun
- Branded workstations with latest configuration for all users
- Highly secured hardware based CISCO PIX Firewall
- Automated backup service integrated with all servers
- State-of-the-art EPABX system and VOIP enabled services
- Uninterrupted power supply for seamless operation
- Dedicated leased data circuit for Internet usage with fail-over ISDN link

OUR ORGANIZATIONAL STRUCTURE

KEY MANAGEMENT PERSONNEL

Mr. Jaber Mohammed J A Al Kuwari – (Chairman) He provides executive guidance to all activities and operations of Opturasoft construction and contracting on behalf of its shareholders. He has a successful track record of starting new and innovative operations, led the turn-around of unprofitable companies, and built winning management teams while helping raise much needed capital. His major shareholding and chairmanship of the Board of Directors sets the direction for Optura in achieving its business objectives and serving the needs of all stakeholders involved.

Mr. Jean Sathian S.P – (CEO Message)

As CEO & GM of Opturasoft Construction and Contracting, I firmly believe that if we can achieve a place in the heart & mind of our customers as a provider of innovative solutions for integrated communities that suit every need and fulfill all dreams, the possibilities for the growth of Opturasoft will be unlimited no matter how challenging the environment.

Opturasoft Construction and Contracting is a business truly capable of benefiting and profiting both society and our shareholders.

I would like to take this opportunity to pledge that I and the Opturasoft Construction and Contracting team will endeavor to devote our full efforts to exceed our customers' expectations & fully satisfy their needs and requirements.

NEW INDUSTRIAL AREA, DOHA, QATAR

Project Description

Scope of work: Supply & Installation of Security System, PABX and Structured Cabling for Data and Telephone

SECURITY SYSTEM

The security system with the following salient features,

- a) Supply & Installation of complete Intrusion Alarm System (Perimeter Sensors, Door/ Window contact Sensors & Alarm Panels)
- b) 36 Zone Integrated Intrusion Alarm System Installed.
- c) Complete Installation of Security System Including HAI Omni 2e Controller, 3/8" Diameter Miniature Press Fit Magnetic Contacts, Glass Break Dictators, PIR Motion Sensors & Perimeter Photo beams.
- d) The system runs a scheduled based ARMING & DESARMING Mode. Customer Could gets notification via SMS which includes the time and corresponding zone name.
- e) The main controller is located in the Electrical room in GF. Each sensors connected with Un-Shielded 22AWG Multi strand 4Core Cables to the Main Controller unit through GI Conduits.
- f) The sensors are powered with an Auxiliary DC Power source with UPS Back UP. 3 Nos. of 12V 120db Sirens are situated in Each floor of the building.
- g) For quick security Arming & Disarming Omni Console keypads are placed in each floors. And keypads are connect through Category6 Cables to the controller.
- h) The controller is connected to the LAN network for the access from PC/Mobile Devices.

PABX SYSTEM

a) PANASONIC - PABX System with 60 Phone

REFERENCE 10: AL MESSILA COMPOUND-VILLA3

Client name:

Location and contact details:

DOHA, QATAR

Project Description

Scope of work: Supply & Installation Of complete Intrusion/ Burglar Alarm System (Strong Room Protection, PIR Motion Sensors, Glass Break Sensors, Alarm Panels & GSM/Tel. Notification System)

Design notes should be follow,

1. Length of 22AWG Sensor Cable could not exceed above 100m.
2. Door Contacts should be 3/8" Diameter Miniature Press Fit Magnetic Contact/Mini Self-adhesive or screw mount Magnetic Bar type .
3. All Door Contacts having Standard gap between 3/4" (20mm) to 1-1/4" (32mm)
4. Recessed Door Contacts having 10mm Diameter.
4. Offset/L Brackets for Door Contacts may required as per the Door types.
5. Each Glass Break Sensors take ranges upto 25'
6. Glass Break dictators are UL listed for coated and double-pane glass.
7. Glass break Detectors Can be Mount on wall, window frame, or ceiling.
8. Cables shall be lay through GI Conduits.
9. Controller shall be installed in Metal Enclosure with Lock & Key

Advantage :-

- Security systems provide safety to families from incidents such as burglary, fire and gas leaks.
- We are all at risk of not only losing our valuables but also suffering possible harm to our dear ones. You can however protect yourself from intruders to a significant extent with the

installation of an electronic security system. Security alarm systems have for decades successfully saved valuable properties and life worldwide. Many burglars are scared away just by the presence of a loud siren from security systems. Further, the security system will immediately call family, neighbors and friends to alert them about the burglary which can result in timely intervention.

- You own a gorgeous home and possess valuable pieces of art, furniture and electronics.
- Motion detectors will trigger the alarm upon sensing any motion in the house when the system is armed. Window and door sensors will trigger the alarm when there is a break-in.
